IMPORTANT NOTICE

The terms of any insurance that we arrange are based upon the information provided. When completing this questionnaire, you must ensure it is a full and accurate representation taking into consideration the duty to disclose all 'Material Circumstances' to prospective insurers.

Material Circumstances are anything you know of (or should know of following a reasonable search of the business) that would influence the judgement of an insurer in deciding whether to insure the risk and on what terms. The most serious consequence of failing to disclose material information could be the invalidation of your cover. In that instance, it would mean that a claim will be rejected. If you are unsure whether any information should be disclosed or require any guidance, we will be happy to advise you.
